

March 6, 2023

Dear Graton Resident,

The results are in! Join us Thursday, March 23 at 5:30 pm at an online community meeting to learn and discuss the results of the Graton Pesticides (GRAPE) Study: Exposure potential from groundwater and air in California Wine Country.

We are hosting this meeting via zoom so our research team can participate, answer questions about the findings, and engage in discussion with the community about potential next steps.

Sonoma Safe Ag Safe Schools (SASS) is proud to partner with the University of California San Francisco, Californians for Pesticide Reform, the United States Geological Survey, and Breast Cancer Action. We are grateful to the California Breast Cancer Research Program for funding this important research in Graton, CA. We would like to thank the community of Graton for engaging in this research project.

Zoom Meeting: <https://us06web.zoom.us/j/85008787205>

Phone option: +1 408 638 0968 US (San Jose)

Meeting ID: 850 0878 7205

If you cannot join us and are interested in learning about the results, visit sonomasass.org or contact Nichole Warwick, Co-Principal Investigator, at nicholewarwick@gmail.com

Best Regards,

The Graton Pesticides Research Team
